

Greenheck's Virtual Education Center Visits

While in-person visits are temporarily on hold, the Greenheck team is excited to offer the next best thing.

You can visit Greenheck virtually.

You are invited to attend one or more virtual visits and be transported to Greenheck's Bernard A. Greenheck Education Center. The one-hour virtual visit includes:

- A brief introduction to Greenheck
- A 25-minute PowerPoint presentation about a specific business unit and its products
- A tour of the product gallery with an engineer from that business unit to discuss specific products, perform demonstrations and end with a question and answer session

Virtual visit options include the following Greenheck products:

- Ceiling and Bathroom Exhaust
- Power Roof Ventilators and EC Motor Technology

- Axial and Inline
- HVLS
- Centrifugal Blowers
- Laboratory and Fume Exhaust Systems
- Make-Up Air Systems
- Dedicated Outdoor Air Systems
- Air-to-Air Energy Recovery
- Commercial and Life Safety Dampers
- Industrial Dampers
- Louvers
- Kitchen Ventilation Systems

Each virtual visit is **one-hour long**. These visits **do not** qualify for professional development hour credit. If you are interested in professional development hours, please visit greenheck.com to learn more about our on demand training and virtual HVAC University events.

**Contact your local
Greenheck representative
for more information.**
